number.

Category:Macromedia

Category:3D graphics

software Category:Flash

software Typically, ink

jet printers are provided

with a plurality of

printheads. Each

printhead typically has a

plurality of nozzles,

each of which is used to

---

expel a small volume of ink from the printhead. By selectively activating the nozzles, an ink dot is printed on a recording medium, such as a sheet of paper. Typically, the nozzles are formed in a nozzle plate that is connected to a body that also contains ink

---

channels and an orifice plate having nozzles formed therein. Each nozzle is typically covered with a meniscus cap to prevent the nozzle from drying out. Each nozzle cap also typically has a small opening that is also covered with a meniscus

---

# cap to facilitate the flow of ink 4bc0debe42
