All-purpose workflow for Adobe Premiere Pro. It organizes keyframes and dynamics within a composition to create a logical narrative framework. FluidRay also features flexible tool options and easy-to-use interfaces for authoring via keyboard or mouse. With support for overlapping gradients, color kerning, vector graphics, and on-the-fly re-compression, FluidRay is able to model most any step-based workflow. FluidRay is a world-class, commercial real-time 3D rendering engine optimized for artistic creation. It is designed to perform well in both visual fine-tuning and real-time rendering. FluidRay supports all graphical disciplines: architecture, animation, motion graphics, VFX, product design, gaming, 2D/3D/4D art/real-time rendering/etc. Artists use FluidRay to work fast and create stunning visual results. We used this groundbreaking 3D rendering technology to create a complete set of VR education products. It won the VR Worlds 2012 Gold Award! FluidRay was also used as a lighting and rendering plug-in for the Blizzard Entertainment's King of the Hill real-time-rendered game, rendering over 2 billion frames per second for an immersive virtual reality environment.
