As far as photo editing goes, its toolset is surprisingly decent. Plugins We'll explain these in a moment, but basically, you can get more functionality (such as creating animated GIFs) using plugins. Other Options If you try to install other image editors, there may be conflicts with Photoshop Elements, and you may have to disable some of the special features of Photoshop Elements. Watch the original 'Cinderella' here in new 4K and 3D remastered version Published Mar 25, 2016 at 3:46 PM Receive the latest entertainment-news updates in your inbox Jordan Galland will reprise her role as Cinderella in the original 1952 movie, based on the popular book by Charles Perrault. All of Cinderella's finery is piled in a heap at the back of the carriage as it speeds into a picturesque and frozen winter wonderland. The ride is intended to take her to the ball, but the fairy godmother can't get herself out of the dress, and the prince and his friends are delighted that Cinderella has come of age and is waiting for the glass slipper that will fit her shoe. Cinderella finds the prince charming and falls in love. But their happiness has an unhappy ending: Cinderella's carriage plunges into a deep ravine, and her prince is killed in the fall. "Cinderella" is a 1952 American version of a fairy tale written by Charles Perrault. It was inspired by the fairy tales of the Brothers Grimm. The film was distributed by 20th Century Fox and released on March 20, 1952. The film, which was directed by Stanley Donen, was produced by Charles Humphrey and based on the 1957 musical adaptation of the same fairy tale by Rodgers and Hammerstein. The original production was followed by four sequels. The first, "Cinderella," was the highest-grossing film of 1952, earning more than \$9 million (US). In the first of those sequels, "Cinderella II, or A Glass Slipper," the prince falls for the fairy godmother, and Cinderella overcomes the fact that she's an orphan and has no family. The second sequel, "Cinderella III, or The Great Adventure," features Cinderella's young daughter becoming an elegant teenager who thinks her parents are dead. The third sequel, "Cinderella IV," features Cinderella becoming a dance star, and her daughter learns to fight the Evil Stepmother. The fourth sequel, "Cinderella V: A Twist in Time," is set in the modern era. "Cinderella" plays at the Amazon Duvet Lounge, Blagden Alley Cinema, and the Broadway Cinema in Chicago. Jordan Galland, who got her start as the young version of the film's title character on the Nickelodeon series "All-American Girl," will reprise
